Dear Dr Drew,

Re Licence no 11083 – Confirmation of licensable activities and authorisation for tissue processing and storage.

This letter confirms that Cells4Life Group LLP is licensed by the Human Tissue Authority under the Human Tissue (Quality and Safety for Human Application) Regulations 2007, to carry out procurement, testing, processing, storage, distribution and import and export of human tissues and cells intended to be used in human application.

Under this licence, Cells4Life have been authorised to process the following tissues:

- Umbilical cord blood
- Umbilical cord tissue

Please note: this letter confirms the status of activities under your licence on the date of issue of this letter and cannot be relied upon at a later date as the activities for which Cells4Life Group LLP are licensed and the tissues which are currently authorised for processing and storage are subject to change. A change may be brought about following an inspection, review of a Process Preparation Dossier, or any other material change that HTA becomes aware of.

Yours sincerely,

Rob Watson,
Head of Regulation
